Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be aliterary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientificarticles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washinston would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be fathfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is samestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of effort, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the rection of the Monum

to the support of the paper, nor the Society in any manner held pocunisarily responsible.

To give the public an idea of what may be done with the journal it is proposed to publish, it may be stated that a list of fifty thousand paying, subscribers, at two dollars each, will yield an annual net profit of from fifty to sixty thousand dollars.

The postmasters, and secretaries of all organized bodies throughout the Union, are respectfully requested to act as agents in obtaining subscriptions, thus aiding the great object of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its success by publishing this prospectus.

All moneys will be remitted, and all latters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlesey, Washington.

OFFICERS.—Millard Fillmore, ex-efficio President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor of Washington,) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Soctt, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Benji Ogle Tayloe, Elisha Whittlesey.

Terms.—The MONUMENT will be printed on a double royal sheet—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the Monument in the following terms: 3 copies for \$5; 5 copies, \$5; 10 copies, \$15; &c.

Those who are disposed to patronise the Monument are requested to forward their names to the General Agent, without delay. The first number will be published early in May,

tee Creams, Water Ices, &c..—Patented September 19, 1848.

This distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief-hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other morie.
5th. There is a considerable eaving in ice, as the tub new is no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the publis."

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoy the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and couvenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College scanes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College lasses. The season also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMILTON—DEAR Six: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately roward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have evitnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the cheet, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the take as a cordial, and in my e-perience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

English Common Law Reports,

English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.

Since volume 38 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

— For the succeeding, \$50 per vol.

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the En lish Common Law Reports.

lish Common Law Reports.

By Hon. Genore Sharewood and George W. Biddle.

Equal 1 vol. 8yo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of logal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise it our Courts of Law; and being thus made easily and in stantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

CAMBRIDGE, January 25, 1845. Messrs. T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1846.

Gentlemen: Your letter of the 24th has been received, in which you sak my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,

SIMON GREENLEAF.

Law Library. Fourth Series-Forty Volumes.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prins, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

British Crown Cases Reversed.

Three Volumes—49.

From 1796 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

POST OFFICE DEPARTMENT, March 14, 1851.

T being desirable to substitute locks and keys of son It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

written motice to that executive with an ix months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualifies, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably nover exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the agrelusive use and benefit of the Department, if the Post master General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to failif faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties contracting with different kinds of locks as he may see fit, for furnishing similar locks and keys.

HUNT'S MERCHANTS' MAGAZINE
AND COMMERCIAL REVIEW.
Established, July, 1888,

BY PRESMAN HUNT, EDITOR AND PROPRIETOR THE Number for December, 1850, completed the twenty-third semi-sensual volume. The work has been enlarged since its commencement in July, 1859, and each volume now contains more than seven hundred large octavo pages. A few complete sets of the Magasine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

Letter from the Hon. Henry Clay.

Ashiasip, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in axpressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronised.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fullmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indipensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be f

Letter from the Hon. Thomas H. Benton.

Mr. Freeman Hunt.—Nr. I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the sifairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant, THOMAS II. BENTON,

My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant.

The ancient standing of the Baltimore Factory, and liberal patronage of citizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty, embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Nisgara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steambont and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate skyenty-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healtful gymnastic exercises.

The steward's department is under the control of a gentleman eminently qualified for that position; and onwearied pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigêncies of our condition. Hydropathy, or a scientific use of water as a restorative and curstive agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the yarious Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great traths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirablences of its arrangements. The institution is now open for the reception of patients, and in full operation.
